Western Province Guide Right Commission
c/o Shannon Faulk

Brother Chairman and Members of the Western Province Guide Right Commission:

Because of Berkeley Alumni Chapter's outstanding Guide Right Program, I am extremely pleased to recommend it for the Jay Crosby Guide Right Award. Since 2013, Berkeley Alumni's program, under the leadership of Brother Dorian Bohler, has achieved remarkable success. Focused on under achieving Middle School students with high academic potential, it is eradicating barriers that block academic success by providing students needed educational resources while assisting them in developing good study habits and by evaluating their performance in core curriculum.

Supported by the energetic and enthusiastic involvement of a number of Berkeley Alumni brothers who volunteer to teach these young men the fundamentals of the discipline required to matriculate in top colleges across the nation, this program, to be sure, illustrates the true intent of Guide Right. Exposing these young Black boys to the world of academic achievement not only enhances their academic performance, but also motivates them to ascend to the next level of academic achievement.

Since its inception, Kappa Alpha Psi's National Guide Right program has been premised on stimulating and encouraging academic success as the cornerstone of achievement. Having known the late Brother Jay Crosby personally, I can attest that his passion for Guide Right is alive and well in Berkeley Alumni's outstanding guide Right program. Accordingly, I am pleased to recommend Berkeley Alumni for the Jay Crosby Guide Right Award.

Yours in the Bond,

Robert L. Harris
