

Dear Mr. Bohler,

First I would like to say I'm thankful for the vision that drives The Kappa League. My son, Jerome Davis Jr, has been involved with this organization since 6th grade and during that time I have seen tremendous growth from him. I have seen progress in his attitude, work ethic, and academic qualities and achievements. There aren't a lot of positive things for young black males to engage in throughout Oakland so the sheer fact that this organization is helping lessen the blow of becoming just another statistic is amazing. I look forward to my son being in this program until his HS career is complete and I wouldn't have it any other way.

Sincerely  
Charheam Hargrove, proud mother.
